EXAMINER'S ACTION

-
1. This application has been filed with informal drawings which are acceptable for examination purposes only. Formal drawings will be required when the application is allowed.
 2. Claims 1-3 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over the prior invention as set forth in claims 1-71 of U.S. Patent No. 5,233,654. Although the conflicting claims are not identical, they are not patentably distinct from each other because the scope of the present claims are included in the patented claims.
 3. The obviousness-type double patenting rejection is a judicially established doctrine based upon public policy and is primarily intended to prevent prolongation of monopoly by prohibiting claims in a second patent not patentably distinct from claims in a first patent. In re Vogel, 164 USPQ 619 (CCPA 1970). A timely filed terminal disclaimer in compliance with 37 CFR 1.321(b) would overcome an actual or provisional rejection on this ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.78(d).
 4. Any questions concerning this communication should be directed to Primary Examiner David Cain at telephone number (703) 308-0463. If prosecution of this case might be expedited by a telephone or personal interview, you are encouraged to call so a meeting can be arranged. Any comments with respect to the quality or content of this action are appreciated as well.
